

# askLiv

Your Guide to a safe and convinient Trip anywhere.

Current online platforms are not catering to a large group of people which turn to offline vendors or do not travel at all because of missing accessibility.

---

## askLiv does

- Provide advice and content related to the users inputs in an intuitive and easily digestable way.
- Act as a single and trustable source of truth for travelers.

## askLiv enables

- Concerned users to travel with ease and confidence.
- Actionable todos to get once trip started.

askLiv aggregates and makes travel advise actionable & relevant based on user specific needs.

Mark as done

Every country differs when it comes to health insurance and coverage. Some Americans who have health insurance may already be covered for trips abroad, but if not, it's important you take out an adequate

Visit your doctor

Mark as done

Make sure to ask your doctor:

How your planned activities could affect your diabetes and what to do about it.

How to adjust your insulin doses if you're traveling to a different time zone.

To provide prescriptions for your medicines in case you lose them or run out.

If you'll need any vaccines.
